CleanScape — Complete Service Structure & End-to-End Service Journey

CleanScape is a technology-enabled cleaning marketplace that connects customers with suitable cleaning professionals.

5 CATEGORIES

3 CLEANING LEVELS

16 JOURNEY STEPS

CONFIDENTIAL

The service architecture is designed around a simple customer journey:

SECTION 01

Residential Cleaning

Cleaning services designed for customers who need help maintaining, refreshing or thoroughly cleaning their homes.

1.1 Regular Cleaning

Routine household cleaning designed to keep a home consistently clean and maintained.

TYPICALLY INCLUDES

- Dusting accessible surfaces
- Vacuuming carpets and rugs
- Mopping hard floors
- Cleaning kitchen worktops and surfaces
- Cleaning sinks
- Bathroom and toilet cleaning
- Cleaning mirrors
- Wiping frequently touched surfaces
- General surface cleaning
- Emptying household bins
- Light general tidying

FREQUENCY

Customers can book:

ONE-OFF

WEEKLY

FORTNIGHTLY

RECURRING

Regular Cleaning is primarily designed to encourage repeat bookings and long-term cleaner/customer relationships.

CLEANING LEVEL

Essential Cleaning

Essential Cleaning is the natural starting point for Regular Cleaning.

Where the condition of the property requires considerably more work, the customer can be directed towards the appropriate higher-intensity service rather than simply adding unrealistic amounts of work to a regular clean.

SECTION 02

Deep Cleaning

For homes requiring substantially more attention than routine cleaning.

Deep Cleaning focuses on areas where dirt, grease, limescale, dust and grime may have accumulated over time.

TYPICALLY INCLUDES

- Everything appropriate from routine cleaning
- Detailed kitchen cleaning
- Detailed bathroom cleaning
- Built-up dirt and grime removal
- Detailed surface cleaning
- Skirting boards
- Doors and door frames
- Detailed fixture cleaning
- Limescale attention
- More intensive floor cleaning
- Harder-to-reach areas where safely accessible
- Detailed cleaning around furniture and household areas
- Additional attention to neglected areas

CLEANING LEVEL

Deep Cleaning sits primarily within:

ENHANCED

COMPREHENSIVE

depending on the condition and requirements of the property.

SECTION 03

One-Off Cleaning

For customers who need their home cleaned on a particular occasion but do not require a recurring service.

EXAMPLES COULD INCLUDE

- Preparing for visitors
- After hosting guests
- Seasonal cleaning
- General home refresh
- Preparing for an event
- Catching up after a busy period
- Simply wanting the entire home cleaned

The customer can select the appropriate cleaning intensity:

Essential

Routine general cleaning.

Enhanced

More detailed cleaning requiring additional time and attention.

Comprehensive

Intensive cleaning for properties requiring considerably more work.

This gives customers flexibility without forcing every non-recurring booking into Deep Cleaning.

SECTION 04

Moving Home Cleaning

A dedicated category for customers moving into or leaving a property.

4.1 End of Tenancy Cleaning

Designed primarily for tenants, landlords, letting agents and property managers when a tenancy is ending.

The focus is on preparing the property for inspection, handover or its next occupant.

TYPICAL AREAS INCLUDE

- Kitchen
- Bathrooms
- Bedrooms
- Living areas
- Floors
- Internal surfaces
- Skirting boards
- Doors and frames
- Fixtures and fittings
- Cupboards where included
- Detailed property-wide cleaning

Customers can then select relevant add-ons depending on the property.

4.2 Move-Out Cleaning

For customers leaving a home who want the property thoroughly cleaned before moving out.

Unlike End of Tenancy Cleaning, a Move-Out Clean does not necessarily have to be connected to:

- A tenancy agreement
- Landlord requirements
- An inventory inspection
- Deposit return

It is simply about leaving the property clean and ready for whoever comes next.

4.3 Move-In Cleaning

For customers who want their new home thoroughly cleaned before settling in.

Particular attention can be given to:

- Kitchens
- Bathrooms
- Cupboards
- Storage areas
- Floors
- Frequently touched surfaces
- Previously occupied areas
- General property cleanliness

THE PURPOSE IS SIMPLE

Walk into your new home knowing the cleaning has already been taken care of.

SECTION 05

Airbnb & Short-Let Cleaning

Designed for hosts, landlords, property managers and serviced accommodation operators who need properties cleaned between guests.

5.1 Airbnb Cleaning

Cleaning and resetting the property between guest stays.

THE TYPICAL OPERATIONAL JOURNEY IS

GUEST CHECKS OUT

CLEANER ATTENDS

PROPERTY CLEANED

PROPERTY RESET

COMPLETION CONFIRMED

PROPERTY READY FOR NEXT GUEST

TYPICAL CLEANING MAY INCLUDE

- Bedroom cleaning
- Bathroom cleaning
- Kitchen cleaning
- Living-area cleaning
- Vacuuming and mopping
- Surface cleaning
- Bin removal
- General presentation
- Property reset requirements

5.2 Holiday Let Cleaning

For holiday accommodation requiring reliable cleaning between visitors.

This is particularly suitable for recurring bookings linked to guest turnover.

The customer may be able to establish their property once and subsequently arrange cleans around their booking schedule.

5.3 Serviced Accommodation Cleaning

Designed for professionally operated short-stay properties. Suitable for:

- Serviced accommodation operators
- Property managers
- Multiple-property operators
- Corporate accommodation
- Short-let portfolios

The focus here should be on reliability and repeatability.

Rather than treating every clean as a completely new booking, CleanScape can retain relevant property and cleaning preferences to make subsequent bookings easier.

SECTION 06

Commercial Cleaning

Cleaning services for businesses and organisations requiring one-off or recurring cleaning.

6.1 Office Cleaning

For workplaces including:

- Small offices
- Corporate offices
- Professional practices
- Shared workplaces
- Co-working spaces

CLEANING SCHEDULES MAY INCLUDE

ONE-OFF

WEEKLY

MULTIPLE VISITS PER WEEK

CUSTOM RECURRING SCHEDULE

6.2 Retail & Hospitality Cleaning

For customer-facing commercial environments such as:

- Shops
- Salons
- Studios
- Cafés
- Restaurants
- Other appropriate hospitality premises

Cleaning can be arranged around the operating requirements of the business.

6.3 Educational Facility Cleaning

For suitable educational and learning environments, subject to CleanScape's operational, contractual and safeguarding requirements.

This could include:

- Training centres
- Tuition centres
- Learning facilities
- Appropriate private educational premises

6.4 Communal Area Cleaning

For shared areas within residential or commercial developments. Examples include:

- Apartment block entrances
- Hallways
- Staircases
- Lobbies
- Shared kitchens
- Shared facilities
- Common areas

THIS SERVICE CAN BE PARTICULARLY SUITABLE FOR

LANDLORDS

PROPERTY MANAGERS

BLOCK MANAGERS

HOUSING PROVIDERS

and can operate on a recurring schedule.

SECTION 07

CleanScape Recovery

A SPECIALIST SERVICE CATEGORY

CleanScape Recovery is built around an important idea: sometimes cleaning becomes difficult because life changes.

Instead of simply providing another type of household clean, CleanScape Recovery provides practical cleaning support during periods when individuals or families may need additional help maintaining their home.

7.1 Pregnancy Support Cleaning

Practical household cleaning support during pregnancy.

The focus is on taking household cleaning pressure away from the customer.

7.2 Postpartum Cleaning

Home cleaning support following childbirth.

Designed to help families maintain a comfortable home environment while they focus on their new baby and recovery.

7.3 Illness Recovery Cleaning

For customers who may temporarily find it difficult to maintain normal household cleaning because of illness or recovery.

This remains a cleaning service, rather than a medical or care service.

7.4 Injury Recovery Cleaning

Practical household cleaning for customers temporarily unable to manage their normal cleaning routine because of an injury or reduced mobility.

7.5 Hospital Discharge Home Cleaning

Cleaning support around someone's return home following a hospital stay. This could include preparing the home before the person returns so that they come back to a clean and comfortable environment.

Again, CleanScape provides the cleaning element only and does not present this as personal or clinical care.

7.6 Bereavement Support Cleaning

A sensitive household cleaning service for individuals and families experiencing bereavement.

The customer journey for this service should be intentionally simple and respectful, avoiding unnecessary upselling or overly commercial language.

SECTION 08

Cleaning Levels

Where appropriate, CleanScape can organise cleaning requirements around three levels.

Essential

Routine cleaning and maintenance.

Suitable for properties that are generally maintained and need normal cleaning.

Enhanced

A more detailed level of cleaning.

Suitable where additional attention, time and detail are required beyond routine maintenance.

Comprehensive

Intensive, detailed cleaning.

Designed for properties requiring considerably more attention and a more thorough top-to-bottom approach.

ESSENTIAL

ENHANCED

COMPREHENSIVE

The level helps determine the intensity and estimated duration of the work.

The actual service selected determines the scope of work.

SECTION 09

Add-Ons

Add-ons allow customers to customise their cleaning without creating unnecessary standalone service categories.

The available add-ons should change depending on the service selected.

EXAMPLES INCLUDE

+ Interior Window Cleaning

+ Inside Oven

+ Inside Fridge

+ Inside Kitchen Cupboards

+ Additional Detailed Areas

+ Other eligible service-specific extras

⚠ IMPORTANT: WINDOW CLEANING

Window Cleaning is NOT a standalone CleanScape service.

CLEANSCAPE WILL NOT OFFER

- × Commercial window cleaning
- × External window cleaning
- × Standalone window cleaning bookings

INSTEAD

✓ **Interior Window Cleaning**

will be available as an optional add-on to eligible cleaning services.

FOR EXAMPLE

DEEP CLEANING + INTERIOR WINDOWS

END OF TENANCY + INTERIOR WINDOWS

MOVE-IN CLEANING + INTERIOR WINDOWS

This keeps the service offering focused and avoids creating a separate operational category solely for windows.

SECTION 10

The Complete CleanScape Service Architecture

The customer-facing hierarchy can therefore be structured as:

RESIDENTIAL CLEANING

- Regular Cleaning
- Deep Cleaning
- One-Off Cleaning

MOVING HOME

- End of Tenancy Cleaning
- Move-In Cleaning
- Move-Out Cleaning

AIRBNB & SHORT LETS

- Airbnb Cleaning
- Holiday Let Cleaning
- Serviced Accommodation Cleaning

COMMERCIAL CLEANING

- Office Cleaning
- Retail & Hospitality Cleaning
- Educational Facility Cleaning
- Communal Area Cleaning

CLEANSCAPE RECOVERY

- Pregnancy Support Cleaning
- Postpartum Cleaning
- Illness Recovery Cleaning

- Injury Recovery Cleaning
- Hospital Discharge Home Cleaning
- Bereavement Support Cleaning

CUSTOMISATION LAYER

WHERE APPLICABLE

ESSENTIAL

ENHANCED

COMPREHENSIVE

THEN ADD-ONS

- Interior Window Cleaning
- Inside Oven
- Inside Fridge
- Inside Cupboards
- Other eligible extras

SECTION 11

End-to-End Booking Process

The actual platform journey can then work as follows:

STEP 01

What do you need?

Customer selects the main category.

RESIDENTIAL

MOVING HOME

AIRBNB & SHORT LETS

COMMERCIAL

CLEANSCAPE RECOVERY

STEP 02

Select your service

Residential → Regular Cleaning

Moving Home → End of Tenancy

Recovery → Postpartum Cleaning

STEP 03

Tell us about the property

CleanScape collects the information relevant to that particular service.

FOR RESIDENTIAL

Property type → Bedrooms → Bathrooms → Additional rooms → Property condition

FOR COMMERCIAL Premises type → Size → Areas → Frequency → Access requirements

FOR AIRBNB

Property type → Bedrooms → Bathrooms → Turnover requirements → Guest schedule

STEP 04

Select cleaning level

Where the service supports different levels:

ESSENTIAL

ENHANCED

COMPREHENSIVE

STEP 05

Personalise the clean

The customer sees only relevant add-ons.

☐ Inside Oven

☐ Inside Fridge

☐ Inside Cupboards

☐ Interior Windows

STEP
06

Choose frequency

ONE-OFF → WEEKLY → FORTNIGHTLY → RECURRING/CUSTOM where applicable

STEP
07

Choose date & time

Customer selects an available booking slot.

STEP
08

Price & estimated duration

CleanScape calculates the booking based on factors such as:

Service + Property Size + Cleaning Level + Estimated Time + Add-ons + Frequency

The customer sees the price before proceeding.

STEP
09

Customer & property details

NAME → CONTACT DETAILS → ADDRESS → ACCESS INFORMATION →
BOOKING NOTES

STEP
10

Payment

Customer confirms and pays through the platform.

STEP
11

Cleaner matching

CleanScape matches the booking with an appropriate cleaning professional based on:

Location + Availability + Service Capability + Job Requirements

STEP
12

Booking confirmation

The customer receives their booking details and relevant cleaner/service information.

STEP
13

Service delivery

The cleaning professional attends and completes the agreed scope.

STEP
14

Job completion

The cleaner marks the booking as completed through the CleanScape system.

STEP
15

Customer feedback

The customer can:

RATE → REVIEW → RAISE AN ISSUE

STEP
16

Rebook

The platform then makes the next action easy:

BOOK AGAIN → MAKE IT REGULAR → REUSE PROPERTY DETAILS →

REUSE PREFERENCES
